Artillery Rockets

Artillery Rockets

The Artillery Rockets designed and produced by ROKETSAN with various calibers and ranges can provide mass fire power with wide coverage on critical area targets between 3 km and 40 km range with perfect accuracy and minimum dispersion. ROKETSAN Artillery Rockets provide timely, accurate and effective fire support to maneuver forces.

Technical Specifications

	TR-107	TR-122	TRB-122
Diameter	107 mm	122 mm	122 mm
Maximum Range	11+ km (at Sea Level)	36 km (at Sea Level) 40 km (600 m altitude)	36 km (at Sea Level) 40 km (600 m altitude)
Minimum Range	3 km (at Sea Level)	16 km (at Sea Level) 21 km (600 m Altitude)	16 km (at Sea Level) 21 km (600 m Altitude)
Weight	19.5 kg	65.9 kg	65.9 kg
Propellant Type	Reduced Smoke Composite	Composite Solid	Composite Solid
Warhead	HE	HE	HE + Steel Ball
Warhead Weight	8.4 kg	18.4 kg	18.4 kg
Warhead Effective Radius	14 m	20 m	40 m
Fuze	Point Detonating	Point Detonating	Proximity*
Pod	Sealed Pod	Sealed Pod	Sealed Pod

* with Point Detonating Backup
