

TECHNICAL SPECIFICATIONS

RANGE	70 KM
LENGTH	3.4 M
DIAMETER	230 MM
WEIGHT	215 KG
GUIDANCE	GO-ONTO-LOCATION IN-SPACE (GOLIS), TERMINAL GUIDANCE WITH LASER DESIGNATION
WAR HEAD	PRESHAPED FRAGMENTATION
PLATFORMS	MULTI-BARREL ROCKET LAUNCHER WEAPON SYSTEM, UNMANNED NAVAL VESSELS
ACCURACY	≤ 10 M (CEP)
ANTI-JAMMING CAPABILITY	

TARGET TYPE

FIXED GROUND TARGETS, COLLECTIVE PERSONNEL TARGETS, OPPORTUNITY TARGETS

LAND SYSTEMS

TRG-230

MISSILE

TRG-230

TRG-230 missiles are effective against strategic targets at ranges of 20–70 km, bringing high accuracy and destructive power to the battlefield. The missiles can be easily integrated into the existing weapon systems in the inventories of armies, and have made a mark with their mission success, cost-effectiveness, electronic warfare resistance and easy deployment against targets of opportunity.
