

AIR SYSTEMS

MAM-L IIR

SMART MICRO MUNITION

TECHNICAL SPECIFICATIONS

RANGE	25+ KM
LENGTH	0.95 M
WEIGHT	23 KG
DIAMETER	160 MM
GUIDANCE	IIR IMAGING INFRA-RED
WARHEAD	MULTI-PURPOSE WARHEAD (BLAST FRAGMENTATION & ANTI-TANK)
PLATFORMS	LIGHT ATTACK AIRCRAFT, UAVs

TARGET TYPE

PERSONNEL, MAIN BATTLE TANKS, RADAR ANTENNA ETC. GROUND TARGETS, ARMORED VEHICLES

MAM-L IIR

MAM-L IIR munition is an Imaging Infrared (IIR) guided, air-to-surface, multi-purpose warhead system that can be integrated into Unmanned Aerial Vehicles (UAVs) and fixed wing platforms.

In addition to the nearly doubled range, it also incorporates trajectory selection features according to different environmental conditions and target type basing on the “man-in-the-loop”
