The audit carried out to confirm that your company's quality assurance system complies with AQAP-2110 requirements has been completed.

It is certified that your company's quality assurance system explained in Quality Manual RS-KY-EK-001 Rev.17 dated on 14 December 2023 and complies with AQAP-2110 requirements for production mentioned below.

"Design, manufacture, assembly and test of rocket and missile systems and their rocket motors, warhead, seeker, fuze and initiator, guidance/navigation, control section; including their launching systems, software, supporting land systems and subsystems, mechanical, electronics and plastic parts, satellite launch and space systems, laser and microwave sourced weapon systems, military explosive and pyrotechnical materials; design, manufacture and test of all kinds of ballistic protection systems."

This certificate is valid until 26 September 2027 by 17.00 o'clock.

Ministry of National Defence of the Republic of Turkey Quality Assurance Authority will continuously monitor and audit effectiveness and application of the quality assurance system.

This certificate may be subject to cancellation if changes and renewals to be made in the system defined in Quality manual presented to the Ministry of National Defence are not submitted to and approved by Ministry of National Defence previously or in the case that results of reviews are negative.
